U S WARSHIPS OFF SPAIN

Many are perhaps puzzled by the fact the Administration has loudly proclaimed to the world that America will stay out of any future European wars and that in the future if we must make a choice between war profits and peace, our choice will be peace; and the apparently inconsistent presence of American warships in Spanish waters and the bombing of one of our Destroyers, the Kane.

Many will reason that if the administration really means what it says about not meddling in European affairs, we'd call our warships home.

In fact, many might go so far as to intimate that nothing would so aid an Administration at the polls in November, as an European "incident."

However, what we haven't seen in the press but which we imagine is the actual case is that American business has tremendous interests at stake in Spain. Many American concerns in past years have chosen Spain for their foreign posts on the theory that Spain was unlikely to become involved in a European war, and therefore was a safe base.

It is these plants we believe our warships are there to protect.

And if anyone dares find fault with Roosevelt for so doing, we call to mind the sending of U.S. Marines to Nicaragua by a Republican administration for the same purpose.

This newspaper believes that the American PEOPLE will support any President who refuses to court war by keeping armed forces in foreign danger zones merely to protect private investment. We'd rather see money earned at home invested at home, and if business men willfully forsake America to invest their money abroad, let them suffer the consequences in time of war.

Who, may we ask, are the Americans still in Spain who have made it necessary to keep U. S. Warships in the war zone? Are they tourists and vacationing rich? Surely not. All such fled long ago. We venture to guess that they are employees of rich American corporations having plants and large investments there.

If there are Americans still in Spain who have made honest efforts to get out of that country since the Civil War there started, but who couldn't escape, then American ships off the coast of Spain won't do any good in getting them out. A landing force would be necessary.

We see no excuse for courting trouble by keeping our warships in the danger zone.

SEATTLE'S "STRIKE"

One of the blackest chapters in the history of American labor, is now being written in Seattle, Washington. The complete break-down of law and order in the Pacific city must be met with a wave of aroused national public opinion so that outside help will be forced to go to the rescue of the suffering groups in the far western radical stronghold.

The Seattle POST-INTELLIGENCER is —or rather was— one of the nation's oldest and best newspapers. It employed many men, paid good wages and served its state.

It has recently been forced to cease publication—not by a strike of its employees (the majority of whom are said to be anxious to return to work) but by pickets of radicals under the wing of a puffed-up local labor organizer.

The record shows that linotypers, printers, pressmen and mailers employed by the paper had contracts with the paper at wages and hours satisfactory to them. But when the Seattle Central Labor Council got sore at the newspapers labor policy and used the excuse of a photo-engraver being fired for inefficiency to list the paper as "unfair" and post hundreds of pickets around the premises, even the men who wanted to, couldn't get to work!

The issue there goes further and deeper than any right of freedom of the press.

The President is out west looking after the damages of drought. We suggest he keep on to Seattle and see that and order are restored.

"ONE-TERM LEMKE"

William Lemke, who is running for president at a scarcely Open place, tells a western audience what he will do if elected. He will keep Congress in session until it provides the biggest job on record for the Bureau of Engraving and Printing; the production of 36 billion dollars in nice new paper money. This will be used to retire the public debt and all oldsters over 60 at one fell swoop. That is to say, the surplus edition of greenbacks will be utilized to start the Townsend Plan.

After that there will be for Mr. Lemke no more world to conquer. He won't be a candidate for re-election. "Either Roosevelt or Landon would make a good President because there wouldn't be much left for them to do."

Quite true. There wouldn't be much left. Somebody might call for the repair truck to haul the wreck away. Naturally Mr. Lemke wouldn't care for a second term. And judging from his remarks on the stump he doesn't care so very much for a first term, even though he is putting on a good show.

—Philadelpria Inquirer

Photographed in Electrical Institute of Electric Association of New York

"Now we'll get the range and the Water Heater, too"

Low electric rates are now in effect. Cooking, water heating, refrigeration, lighting and all other electric services cost less than ever before. In fact the more electrical servants you have, the lower the average cost will be to use them.

Latest models of labor-saving devices are on display at our show rooms, and at your dealer's store. Inspect them freely. Convenient terms are available.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'doless.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me." . . . If Cardui does not help YOU, consult a physician.

WHEN you are suffering, you want relief—not tomorrow—not next week—but right away. *DR. MILES ANTI-PAIN PILLS* relieve in just a few minutes—less than half the time required for many other pain-relieving medicines to act.

Next time you have a *Headache*, or *Neuralgia*, or *Muscular, Sciatic, Rheumatic*, or *Periodic Pains*, just take an Anti-Pain Pill. Learn for yourself how prompt and effective these little pain relievers are. You will never again want to use slower, less effective, less palatable medicines, after you have used Dr. Miles Anti-Pain Pills.

"I am much pleased with your Anti-Pain Pills. They sure are wonderful for a headache and for functional pains. I have tried every kind of pills for headache but none satisfied me as your Anti-Pain Pills have." Ann Makuka, St. Benedict, Pa.
